

# CODING CLUB

ESSENTIAL  
SKILLS FOR  
YOUR  
FUTURE

“  
Every child born this century  
should learn to code!

- Bill Gates

LIMITED  
PLACES

Innovation Pod will be running its  
award-winning Coding clubs here  
at Mayespark

## YEARS 1 & 2 - WEDNESDAY

Our Move It! module is all about coding vehicles and machinery. We'll be writing detailed algorithms to complete our tasks and move a range of vehicles through tunnels and mazes.

Pupils studying our Code Quest will adventure through forests, deserts, space and beyond to apply coding skills that are directly linked to the national curriculum. Along the way, they'll need to use events, loops and conditions to pass through different worlds.

## YEARS 3 - 6 THURSDAY

Tynker Quests is a fun introduction to the world of coding. Children will apply a range of iteration functions, such as: while and until conditions to complete a series of games with monsters and hotrods. They'll then finish the module in the project lab, applying their new skills.

Our Movie Maker module uses the world famous Scratch platform to allow children to develop their own animated stories. They'll apply the fundamental skills of coding to bring animated projects to life, including: movie trailers, pop videos and stories.

You can sign up to both clubs on our website or scan the QR code  
Classes will start straight after school and finish at 4:30pm. Clubs cost £5.50  
(+VAT) per session. Payment is for the full term via a one-off Direct Debit. This is  
NOT a recurring payment.  
Clubs will begin on w/c 12th September till w/c 5th December excluding half term.
