Dear Parent / Guardian,

Redbridge Schools Streets - Mayespark Primary School

Redbridge Council wrote to you in February 2023 informing you that it was consulting with local people on introducing School Streets in the borough as part of plans for a greener Redbridge and listening to concerns raised around traffic during school pick up and drop off times. The consultation period has now ended, and the Council is writing to let you know the outcome of the consultation and the next steps.

The scheme was proposed in order to help protect children from traffic at the school gate; to encourage more families to walk, scoot and cycle to school; and to reduce levels of air pollution around our schools.

Consultation results

The consultation results for a proposed School Street at Mayespark Primary School were as follows:

- 35.6% of respondents supported the implementation of the proposed School Street Scheme at Mayespark Primary School.
- 64.4% of respondents did not support the implementation of the proposed School Street Scheme at Mayespark Primary School.

The feedback that was received during the consultation was analysed and considered carefully. The council has reviewed all the comments and, in light of the feedback, has decided **not** to introduce a School Street scheme at Mayespark Primary School.

The team will look at alternative options in the near future to improve the safety of school children in area, including considering a re-design the School Street zone to address the concerns, feedback and ideas raised during the consultation.

If you have any further questions regarding the proposed School Streets scheme at Mayespark Primary School, please contact the School Streets team at schoolstreets@redbridge.gov.uk.

Yours faithfully,

Redbridge School Streets Team
