

Maths - measures

The children will develop their understanding of area and perimeter using their knowledge of the four operations. They will also learn about volume as well as converting between different units of measure.

Science – light theory

Children will learn about light and how it travels from light sources to our eyes.

Computing

Children will continue to discuss safety online. Children will also use software to create online quizzes for younger pupils.

RSHE - Relationships

Children will discuss and reflect on the different relationships that they have as well as considering what a healthy relationship is.

PE

Outdoor: athletics

Indoor: gymnastics

Metacognition – How was that effective?

Children will reflect on their own learning and processes, considering effectiveness

Big issue: How did WW2 effect us?

Text: Holes by Louis Sachar

English

The children will be writing formal and informal pieces of writing including a balanced argument, letters and narratives. They will develop their understanding of the setting and characters through debates, role play and discussions. They will write for a range of audiences.

History– how did WW2 effect us?

Children will learn about the causes, effects and consequences of the second world war.

Music

Developing pitch, control and confidence (Songs of WW2)

RE

The children will explore how religion can help people when life gets hard.

French

Children will learn words and phrases to describe sports .

Art

Bees, beetles and butterflies

Children will produce observational drawings, mixed media collage and pop art.

Ways in which you can support your child at home...

Below is a list of activities available on the websites we subscribe to as a school, for which your child has their own login and password. These activities have been selected for your child to complete this half term, as they support learning in class. There are also some other helpful websites which can be accessed for free.

<https://www.bbc.co.uk/bitesize/topics/z3nnb9q/articles/zrs62v4>

Maths at home

[MathsBot.com - Tools for Maths Teachers](https://www.mathsbot.com/)

Maths arithmetic practice

TT Rockstars

Children have access to times tables challenges to support fluency in multiplication and division facts.

<http://mitrw.lgfl.org.uk/index.html>

Purple Mash

Here are some suggestions that link with topics for this half term.

<https://www.purplemash.com/#tab/pm-home/science>

Spag.com

There will be weekly quizzes set on spag.com which is good revision of spelling, grammar and punctuation previously taught.

BBC Bitesize

[Grammar, punctuation and spelling - Year 6 KS2 English - BBC Bitesize](https://www.bbc.com/bitesize/primary/6/grammar_punctuation_spelling)

Places to visit as a family:

To support your child's learning this half term, why not consider taking a trip to the British museum or Redbridge library to support their learning about WW2.

Reading

In Year 6, we expect the children to read for at least 30 minutes every day. Children should change their reading book when they have finished reading it and should ensure that they sign their reading record.

Summer 1

This half term, the children are working towards achieving the target indicated below. The ultimate aim is for your child to be able to recall these facts instantly.

To know the doubles and halves of all multiples of 100 to 10,000

To know the square roots of square numbers to 15×15

Vocabulary

multiply
divide
Multiples
Square numbers
Square roots

Example questions:

1. Write out the numbers from 1 to 100 in ten rows of 10.
2. Colour in 1×1 , 2×2 , 3×3 , etc. up to 10×10
3. Is there a pattern? Can you explain it?
4. Examine the differences between each square number.
5. Can you predict the next two square numbers and beyond?
6. If you have completed the exercise correctly, you should have shaded 1, 4, 9, 16, 25, 36, 49, 64, 81 and 100, and established that the next two numbers are 121 and 144.
7. **Now learn them and the corresponding square roots (e.g. the square root of 81 is 9)**
8. Can you write some word problems of your own involving square numbers and square roots.
e.g. 8 people paid £8 each for theatre tickets. How much did they pay altogether?
e.g. If 12 people paid £144 for tickets altogether, how much was each ticket?

Helpful hints:

- Include quick fire multiplication and division facts in your daily routine.
- Encourage children recall division facts as well as multiplication facts.

Children should be able to recall what they already know to support them with finding doubles and halves of multiples of 100 and 10,000.

For example, if I know that double 3 is 6, then I also know that double 300 is 600. If I know that half of 12 is 6, then I also know that half of 12,000 is 600.

Please encourage children to log in to Times Table Rockstars to practise their times tables. They should aim for 5-10 minutes.
