# CODING CLUB

ESSENTIAL SKILLS FOR YOUR FUTURE

" Every child born this century should learn to code!

- Bill Gates

LIMITED PLACES

Innovation Pod will be running its award-winning Coding clubs here at Mayespark

YEARS 1 & 2 - WEDNESDAY

Children in our KS1 club will take part in our exhilarating 'Creative Art' and 'Code to Music' modules.

In 'Creative Art', children learn and apply coding skills on three different platforms that allow them to create images and patterns on screen like a real digital artist. As well as a chance to be creative with their coding, this module builds up their block coding skills to be confident with directions, variables and pauses. In 'Code to Music', pupils will be learning how to code music with a variety of platforms, including Scratch, Pencil Code Gym and the virtual micro:bit. They'll make interactive projects with a dynamic soundtrack.

YEARS 3 - 6 THURSDAY

Children in our KS2 clubs will be studying two thrilling modules, 'Tynker Javascript' and 'Python with Codesters'.

In the 'Javascript' module, pupils learn one of the most widely used coding languages on the internet. They gain a huge sense of achievement as they write lines of real code complete with complex syntax. In our 'Codesters' module, children learn the syntax of one of the world's most powerful coding languages used in AI. They also get to compare and contrast this to other coding languages which helps build a deep understanding of code.

Sign up using this link: https://www.innovationpod.co.uk/signup

Classes will start straight after school and finish at 4:30pm. Clubs cost £5.50(+VAT) per session. Payment is for the full term via a one-off Direct Debit. This is NOT a recurring payment.

Clubs will begin on w/c 16th January till 27th March excluding half term.
